

PROCEEDINGS
OF THE
YORKSHIRE
GEOLOGICAL & POLYTECHNIC
SOCIETY.

NEW SERIES—VOLUME VIII.

1882-1884.

With Twenty-three Plates and Maps.

EDITED BY JAMES W. DAVIS, F.S.A., F.G.S., F.L.S.

LEEDS:
PRINTED BY A. MEGSON & SONS.

TABLE OF CONTENTS.

1882.

	PAGE.
"Biographical Notices of Eminent Yorkshire Geologists, I., 'John Phillips.'" By the Editor.	3
"On the White Chalk of Yorkshire." By the Rev. E. Maule Cole, M.A., F.G.S.	12
"Glacial Sections near Bridlington." By G. W. Lamplugh. Part II., "Cliff Section extending 900 yards south of the Harbour."	27
"Notes on the Occurrence of Fossil Fish Remains in the Carboniferous Limestone Series of Yorkshire." By J. W. Davis, F.G.S.	39
"On the Lead Veins in the Neighbourhood of Skipton." By J. Ray Eddy, F.G.S.	63
"On the Discovery of Flint Implements on the Hills between Todmorden and Marsden." By Robert Law and James Horsfall.	70
"Yorkshire Fossil Mollusca." By William Cash.	77
"On the Recent Extension of Mining Operations under the Permian Formations." By Thomas William Tew, Esq., J.P.	89
"Photograph—Thornwick Bay, Flamborough." By G. W. Lamplugh.	103
"On some Sections Exposed during the Formation of Line of the Railway between Upton and Kirk Smeaton." By James W. Davis, F.G.S.	107
"Notes on the Excursion to the West Riding of Yorkshire." By Hudleston and Davis; together with Preliminary Remarks by W. H. Hudleston, F.G.S., President of the Geologists' Association, London.	113
Secretary's Report and Balance Sheet.	136-140
Minutes.	141
Summary of Geological Literature	147
List of Members.	149
Meteorology of Bradford for 1882. By J. McLandsborough, F.G.S., and A. E. Preston, F.G.S.	

1883.

"Address on the Connection between Geology and Archæology." By the Rev. W. C. Lukis, M.A., F.S.A.	157
"Notes on the Carboniferous Polyzoa of West Yorkshire and Derbyshire.— (<i>An attempt to identify Phillips' Species</i>)." By George Robert Vine.	161
"On the Geology of Palestine." By W. H. Hudleston, M.A., F.G.S., &c.	174
"A Glacial Deposit near Doncaster." By Thomas Hill Easterfield	212
"Notes on a Visit to the Channel Tunnel." By Arnold Lupton, M. Inst., C.E., F.G.S., &c.	213
"On the Sequence of the Permian Rocks, near Ripon." By the Rev. J. S. Tute, B.A.	218

"Some Indications of a Raised Beach at Redcar." By the Rev. J. S. Tute, B.A.	220
"On the Raised Beaches on the North-East Coast of Yorkshire." By W. Y. Veitch, Esq., M.D.	221
"Notes on the Carboniferous Entomostraca and Foraminifera of the North Yorkshire Shales." By George Robert Vine	226
"Glacial Sections near Bridlington. Part III. The Drainage Sections." By G. W. Lamplugh.	240
"On the Shell Mounds or Kitchen Middens at Spurn Point." By H. Bendelak Hewetson. (Title only).	254
"The Young Stage of Some Carboniferous Cephalopoda." By Wm. Cash, F.G.S. (Title only).	254
"Biographical Notices of Eminent Yorkshire Geologists. II., 'Adam Sedgwick.'" By T. M'Kenny Hughes, M.A., Woodwardian Professor of Geology, Cambridge	255
"Geological Excursion to Holderness, the Kilnsea Shell Mounds, Spurn Point, and the Pile Dwellings at Ulrome." By James W. Davis, F.G.S.	269
Secretary's Report and Balance Sheet	276-280
Minutes	281
Summary of Geological Literature	285
List of Members	287
Meteorology of Bradford for 1883. By J. M'Landesborough, F.G.S., and A. E. Preston, F.G.S.	

1884.

"Biographical Notices of Eminent Yorkshire Geologists. III., 'John Williamson.'" By W. C. Williamson, LL.D., F.R.S., &c., Professor of Botany at the Owen's College, Manchester.	295
"On the Mineral Wells at Harrogate." By Richard Carter, C.E., F.G.S. ...	313
"The Harrogate Wells, or the Mineral Waters of Harrogate geologically considered." By C. Fox-Strangways, F.G.S., &c., of H.M. Geological Survey.	319
"The Mineral Springs of the Grand Anticlinal of the West Riding: a few Chemico-Geological Notes." By Geo. Oliver, M.D. (Lond.) ...	336
"The Mineral Wealth of Harrogate." By R. Hayton Davis, F.C.S. ...	357
"Analysis of the Kissengen Saline Chalybeate Water, 1883, as compared with analyses in 1845, 1854, 1867, and 1879." By R. Lloyd Whiteley. Student in the Yorkshire College	366
"Contributions to the Fossil Flora of Halifax." Part IV. By Thos. Hick, B.A., B.Sc., and William Cash, F.G.S.	370
"Further Notes on New Species, and other Yorkshire Carboniferous Fossil Polyzoa described by Prof. John Phillips." By George Robert Vine	377
"On the Composition of the Coal Balls and Baum Pots in the Lower Coal Measures." By H. B. Stocks	393
"On the Fire-Damp Detector, with recent Improvements in the Miners' Safety Lamp; and some remarks on the difficulties connected with Deep Mining." By W. E. Garforth, C.E.	395
"On a new Species of Heterolepidotus from the Lias." By James W. Davis, F.G.S., &c.	403

List of Members	417
Meteorology of Bradford for 1884. By J. McLandesborough, F.G.S., and A. E. Preston, F.G.S.	424

THE PHOTOGRAPH

Issued with this part of the Proceedings exhibits a section in the cliff, a short distance beyond the archway on the north side of the Castle Hill, at Scarborough. The Dogger Beds are exposed at the base of the Upper Calcareous Grit. The peculiar nodular masses called "Doggers" project prominently from the surrounding surface.
