CONTENTS OF VOLUME 48 (continued)

J. B. Riding see S. Gowland and J. B. Riding ......................................... 375

N. J. Riley
Stratigraphy of the Worston Shale Group, Dinantian, Craven Basin, north-west England .......... 163

D. E. Rogers and G. W. Stuart
A seismic refraction study of the upper crustal structure of the Derbyshire Dome .................. 265

M. Romano and D. A. Spears
Bentonites from the Horton Formation (Upper Silurian) of Ribblesdale, Yorkshire .................. 277

M. Romano and M. A. Whyte
Selenichnites, a new name for the ichnogenus Selenichnus Romano & Whyte, 1987 ................. 221

C. C. Rundle see R. Kanaris-Sotiriou, D. Millward and C. C. Rundle ................................ 393

A. B. Smith and N. T. J. Hollingworth
Tooth structure and phylogeny of the Upper Permian echinoid Miocidaris keyserlingi ............. 47

D. B. Smith see D. Q. Bowen, D. B. Smith and G. A. Sykes ........................................ 415

S. A. Smith and D. W. Holliday
The sedimentology of the Middle and Upper Border Groups (Viséan) of the Stonehaugh Borehole, Northumberland .......... 435

D. A. Southwood
New bryozoan taxa from the Upper Permian Zechstein reef in N.E. England ....................... 33

D. A. Spears see M. Romano and D. A. Spears ................................................................. 277

E. Spinner see N. Turner and E. Spinner ................................................................. 81

E. G. Spinner
Tricontactispora, a new genus of megaspores from the Namurian of the southern Pennines, Derbyshire, England ................................................................. 143

G. W. Stuart see D. E. Rogers and G. W. Stuart ......................................................... 265

M. G. Sumbler see A. Brandon, M. G. Sumbler and H. C. Ivimey-Cook ...................... 121

G. A. Sykes see D. Q. Bowen, D. B. Smith and G. A. Sykes ........................................ 415

G. A. Sykes see D. Q. Bowen and G. A. Sykes ............................................................. 463

J. W. Tilsley see C. H. C. Brunton and J. W. Tilsley .................................................. 287

N. Turner and E. Spinner
Palynological evidence for the age of the Coal Measures of the Titterstone Clee Coalfield, Shropshire, England ................................................................. 81

J. J. Walsh and J. Watterson
New methods of fault projection for coalmine planning ................................................. 209
